

# **DNREC's Massey's Ditch Channel maintenance dredging project to be rebid later this year**

**DOVER** – The Department of Natural Resources and Environmental Control's Shoreline & Waterway Management Section conducted the bid opening for the Massey's Ditch Channel Maintenance Dredging Project as scheduled on Jan. 30. DNREC did not receive an acceptable bid.

As a result, DNREC will update their design specifications and contract documents, and rebid the project later this year. DNREC anticipates that the second invitation to bid, to be announced this spring, will allow a four-month dredging window between Nov. 1 and March 1, 2020.
